

Theory (Thu p.m.)

- tools presented:
- SimDB
- SimDAP
- VisIVO and VisIVO Server
- S3Wizard

Theory

- people doing cosmological simulations probably put the most effort to provide their community with the results (time critical)
- μ -simulations – too many different things simulated – S3Wizard possible solution
- standards!! still missing – so work on producing data and wait ;-)

Theory

- SerVO
- DSED
- stark
- old photo plates
- astrometric catalogs
- workshop - many tools for different needs
-
