

VOEvent Tutorial

- Relatively small attendance
 - No-one really intending to publish VOEvents
 - VOEvent community already formed
 - But several people made it to the end!
 - STAP shows some promise
- I would like to thank
 - Alasdair Allan
 - wrote the slides, software etc. General UK VOEvent guru.
 - Elizabeth Auden, Kevin Benson
 - STAP software and tutorial materials

Time Series

- I detected more interest in this problem
 - Perhaps this was what people were hoping for when they saw “Time dependent data”
 - Pressing need for a “Time Series Data Model” and an access protocol for the data
 - Light curves, periodic events
- Presentation by Mauro López
 - Using IVOA Spectrum Data Model
 - Nearly good enough for light curves
 - Perhaps more lacking for periodic data
- Resolved to become active within IVOA WG to promote time series
- More details of both sessions on Wiki
